

Iowa Strategic Goals Program Assistance Workshop:

“Hazardous and Solid Waste Compliance & Management”

When: May 1, 2012

Where: Ramada Tropics Resort and Conference Center
5000 Merle Hay Road
Des Moines, Iowa 50322
(I-80, Exit 131)

Time: 9:00 to 3:00 P.M.
Cost: \$30 (includes lunch)

Waste. Everyone generates waste. You can optimize your processes, but there will always be some waste that you will need to dispose of. Should you blindly toss your waste into the dumpster? First, ask yourself, “is this hazardous waste?” If your answer is “I don’t know”, then we encourage you to join us for this informative workshop. Representatives of the U.S. Environmental Protection Agency will discuss basics of hazardous waste identification and management.

Perhaps you are properly managing your waste and looking for more ways to cut your waste disposal costs. Your waste may be a desirable product for someone else. But, can you make that determination? Even if your waste can be reused or recycled...how can you find someone to take it off your hands? We have invited a representative from the Iowa Waste Exchange to share information on the Iowa Waste Exchange and to answer your questions.

This Compliance Assistance Workshop will feature experts addressing hazardous and solid waste issues ranging from identifying and managing wastes to landfill and destruction alternatives to possible source reduction changes. As with our previous Workshops, we encourage you to bring your questions for the presenters.

This workshop is the twelfth in a series offered by the Iowa Strategic Goals Program (ISGP). The workshop is open to all Iowa manufacturers and the materials presented will apply to a broad range of industrial processes. The following comments were received from previous workshops:

“Good information presented – Relevant to all types of industries.”

“Very good class, good information, timely topics.”

“Speakers were very well educated in topics discussed.”

“I think this is a great forum to allow businesses to get good compliance information with the regulatory agencies.”

This workshop is sponsored by the Iowa Strategic Goals Program in partnership with EPA Region 7, the Iowa Department of Natural Resources and the Iowa Waste Reduction Center.
